We are the SEND User Engagement Team at Wiltshire Centre for Independent Living (WCIL).

We work alongside Young People with lived experience of Health and Social Care Services to support, encourage and facilitate them to have their say. We aim to ensure their voices are heard and they are able to contribute to and influence how services are shaped and developed in Wiltshire.

We use creative and interactive ways of engaging with people, co-producing each piece of work uniquely, to value the authentic voice of all service Users.
